

## The Miracle of Life Permission Slip

Please complete this slip and bring it to the first day of class.

Today, teens are surrounded with images and references to sex and may receive conflicting and incorrect information about sexual matters and sexuality. The intent of this Spark class, *The Miracle of Life*, is to teach children facts about sex so as to help them make informed decisions in the future.

Our class is 50 minutes long, and will include instruction related to the following topics:

Consent and respect in relationships

Contraceptive methods

Human sexuality

Male and female reproductive systems

Sexually transmitted diseases and prevention

This program includes a lecture about the above as well as an anonymous question and answer session.

We encourage you to discuss with your student the information shared in class. All students must have parental consent prior to participating in the *Miracle of Life* curriculum. Please complete and bring the permission slip to class on the day-of.

I have read and understood the information given above, and I give permission for my student to participate in Spark's *The Miracle of Life* class.
